Education

Bachelor of Technology	<u>Sri Venkateswara College of Engineering</u>	<i>Chennai, TN</i>	Oct 2022 – June 2026
Information Technology			
CGPA: 8.62			
HSC(Class XII)	<u>Kingston Matriculation Higher Secondary School</u>	<i>Thiruvanamalai, TN</i>	Aug 2021 – May 2022
Percentage: 95.1%			
SSLC (Class X)	<u>Kingston Matriculation Higher Secondary School</u>	<i>Thiruvanamalai, TN</i>	Jun 2019 – Mar 2020
Percentage: 97.6%			

Skills

Languages: Java | HTML | CSS | JavaScript | MongoDB

Technologies: MySQL

Concepts | Coursework: OOPS | DBMS | Data Structures & Algorithms

Certificates: |  Infosys  Springboard Java Foundation Certification | Machine Learning Foundation Certification

Projects

Mock IPL Auction Web App: Developed a complete web application using HTML, CSS, JavaScript, and Firebase that simulates a real IPL mini-auction. The system includes a player database (JSON), live bidding interface, team purse management, add/remove players, and real-time updates. Integrated Firebase Realtime Database to store and update auction data instantly.

Taxi Booking System: Implemented a Java-based console application to allocate taxis efficiently, calculate fares, and display trip records during runtime using object-oriented design.

Accomplishments

Paper Presented: Parkinson's Disease Detection Using Machine Learning

Event: National Conference on Communication and Information (NCCI)

Description: Presented a machine learning system that captures and analyzes voice data in real time to detect Parkinson's disease. The approach enables early, non-invasive screening and supports advancements in accessible medical diagnostics.

Internships

SQL Development Internship: Worked on database design, ER diagrams, normalization, queries, stored procedures, triggers, and indexing.
