Education

Bachelor of Technology Information Technology CGPA: 8.62	<u>Sri Venkateswara College of Engineering</u>	Chennai	Oct 2022 – June 2026
HSC (Class XII) Percentage: 95.1%	<u>Kingston Matriculation Higher Secondary School</u>	Tiruvanamalai	Aug 2021 – May 2022
SSLC (Class X) Percentage: 97.6%	<u>Kingston Matriculation Higher Secondary School</u>	Tiruvanamalai	Jun 2019 – Mar 2020

Skills

Languages: Java | HTML | CSS | JavaScript

Technologies: Spring Boot | Playwright | MySQL | MongoDB

Certificates: Java Foundation Certification — Infosys Springboard

Manual & Automation Software Testing with the Help of Gen AI — Udemy

Projects

Digital Subsidy Platform

Developed a web-based digital subsidy management platform using Spring Boot, Java and MySQL database. Implemented REST APIs for user and scheme management, eligibility checking based on criteria such as age and income, and automated subsidy scheme status handling.

Taxi Booking System

Developed a Java-based console application for efficient taxi allocation, fare calculation and trip record management. The system applies object-oriented programming principles to organize the application and manage taxi booking operations effectively.

Playwright JavaScript Automation Project

Developed automated web testing scripts using Playwright and JavaScript. Implemented browser automation for web application testing, including element interactions, validations, assertions, navigation, and automated test execution.

Internships

SQL Development Internship | July 2025 – August 2025: Worked on database design, ER diagrams, normalization, queries, stored procedures, triggers, and indexing.

Infosys Springboard Internship | July 2026 – September 2026: Developed practical skills in Java, Spring Boot, and backend development through structured learning and hands-on project experience.
